Per Executive Order 14247, you can NO LONGER make FEDERAL PAYMENTS by PAPER CHECK effective 9/30/2025!!! This includes tax return payments, estimated payments, & extension payments. There will be NO EXCEPTIONS.

Online payments can be accepted via card, digital wallet, or bank account at irs.gov/payments
Direct Pay is the recommended way as it lets you pay with no fees, and with your bank account as you would with a regular check. An IRS account is NOT required to make payments online.

Here are some notes when making your Extension Payment (Form 4868) for your 2025 Federal Tax Return:

1. You will need to choose the following in Step 1:
 - a. "Reason for Payment" will be "Extension"
 - b. "Apply Payment To" will be "4868 (for 1040, 1040A, 1040EZ)"
 - c. "Tax Period for Payment" will be "2025"
2. In Step 2, the "Tax Year for Verification" should be the year of the most recent tax return filed. In this case, it *should* be "2024." You can fill out the rest of this step in accordance with your "2024" tax return.
3. Step 3 asks for your payment details.
4. Step 4 will have you review and accept the Authorization Agreement, review and confirm the information you have entered, and supply an electronic signature.
5. Step 5 is submitting payment and information.
6. Make sure to keep a copy of the receipt!!
